

3xPerformance night at Tove's Galleri Workshop Space, Cph 2010

Participated with the performance "The Opening"
Materials, MDF, satin ribbon, wood. Dim.: variable

Taking up the ribbon cutting ceremony, i chose to formally open the newly opened gallery. 4 rows of ribbons were put up, and I started cutting the ribbons, but soon found out I have a very dull pair of scissors, which then took me longer and longer to open the gallery. The scissors finally broke at the very last ribbon. What remains are 8 free standing sculptures.
